Dufferin Concrete Ready-Mix Drum Program **PARTNERSHIP PACKAGE**

About the Program:

The Dufferin Concrete Ready-Mix Drum Program was launched in 2007 in order to raise funds for kids in a number of regions throughout Ontario. In 2012, the program came to Durham Region to support the work of Grandview Children's Centre.

Participants who sponsor the Ready-Mix Drum Program will have their logo proudly displayed on two trucks for one year. One truck is based at Dufferin Concrete's Bowmanville location and the second at Dufferin Concrete's Whitby location. The working trucks travel throughout Durham Region for approximately 250 days per year.

Why Grandview Kids?

Grandview Kids exists to help children and youth in Durham Region to live life to their full potential. We are the only Children's Treatment Centre in our region providing life-changing paediatric and rehabilitation services and specialized programs for kids with physical, communication, and developmental needs.

Grandview's demand for services is growing rapidly. Over the years, demand has grown from 400 kids annually in the 80s to the current demand exceeding 19,000 kids. Of the 19,000, 11,000 are waiting for services.

Grandview Kids now has 7 locations across Durham Region and with help from our caring friends in the community, we're working to get kids off waiting lists and into therapy faster. All money raised through our events goes toward funding annual programs and services at Grandview.
